PhD (integrated) Program MSc-PhD BIOTECHNOLOGY

Regional Centre for Biotechnology is an Institution of National Importance established by the Department of Biotechnology, Govt. of India under auspices of UNESCO, with a mission to impart world-class education and training, and conduct research in frontier areas of biotechnology and life sciences.

Applications are invited from Indian and foreign students holding a graduate degree (or those expected to complete shortly) in any field of science, technology or engineering for admission to the MSc-PhD integrated degree program 2019. Prospective Indian students willing to apply for admission to RCB MSc-PhD integrated degree program are required to register online and appear for the Joint Graduate Entrance Examination for Biology and Interdisciplinary Life Sciences (JGEEBILS) test to be conducted by the NCBS-TIFR in December 2018.

A separate online application is then required to be made for admission to RCB MSc-PhD program quoting the JGEEBILS registration number. RCB will conduct an interview of shortlisted JGEEBILS-qualified candidates. Foreign students can submit their applications online directly along with scanned copy of transcripts and the shortlisted candidates will be interviewed through skype.

Please visit www.rcb.res.in / www.rcb.ac.in for the program and the admission details.

The last date of
application for
RCB MSc-PhD Integrated
Degree Program is
**28 February
2019**
